

APG CASH DRAWER®

MOBILE CASH DRAWER SOLUTIONS

USBPro™ for Cash Drawers

Contact your APG sales representative at (763) 571-5000

The 554A and 854 USBPro™ interfaces allow a retailer more control over the operation of a cash drawer. Powered by the USB bus, external power is not required providing true plug and play connectivity. Drivers allow seamless operation within a retailer's POS software and troubleshooting and set-up are made easy with diagnostic LED. The USBPro™ interfaces prevent unauthorized devices from opening a cash drawer increasing POS security. Available for: Series 100, Series 4000, and Vasario Series cash drawers.

554A USB Interface

The Model 554A Cash Drawer is compatible with all versions of the Microsoft Windows, Android and Apple iOS operating systems.

Key Features:

- The cash drawer is a bus-powered, HID class USB peripheral
- Provides proper operation when connected to a USB 3.0 port
- Compatible with all operating systems that recognize USB HID class device peripherals including Windows XP/7, Mac OSX 10.5+, Linux
- A 6ft/2m USB-A / USB-B cable is included
- Conforms to USB 2.0 standard HID class, low-speed, high power devices
- Drivers and text applications are available Windows native DLL, OPOS, JavaPOS

854 USB Interface

In addition to the features listed above, the 854 USB interface supports the power management model of Windows 10 to conserve tablet battery life in mobile point-of-sale facilitated environments. The 854 USB interface allows Windows 10 to reserve tablet battery life in mobile POS environments; therefore, a retailer will not lose out on any sale during mPOS transaction down time.

Interface	Windows Power Mgmt.	Easy to Install	HID Class Device	Supports Android, Windows, iOS	Supports USB
