## Bluetooth-Enabled Cash Drawers

The BluePRO® bluetooth device enables a printer-kick cash drawer to pair with a mobile device. Whether operating in a Thin or Mobile (Thinbility) environment, the BluePRO® device allows retailers to wirelessly synchronize and create a one to one relationship between the cash drawer and tablet. The BluePRO® device achieves proximity when the mobile device comes within limited range of the drawer.

### Key Features of the Model 510 BluePRO® Device:

- The Bluetooth device connects a printer-kick cash drawer so that it can be paired with a tablet
- Your POS software must be compatible with the APG BluePRO® device. Before you purchase the device, make sure it's compatible with your existing POS software.
- Wirelessly synchronize and transfer data between a mobile device and cash drawer within a personal area network
- Proximity is achieved when the tablet comes within limited range of the Bluetooth device
- APG provides demonstration applications for Android, iOS, and Windows
- The BluePRO® Bluetooth external device is MFi certified for iPhone, iPod, and iPad

### Available Part Numbers:
