

# Curvi Cash Drawer

## Light Weight, Secure, And Affordable

### Integration Systems

The Curvi drawer is designed with a new modern look of curved corners for the next generation of retailers who value design and know that image does matter.

The compact Curvi drawer not only offers good coin and note capacity, but also a perfect platform for tablets, iPads and the latest small EPOS systems. It has the added benefit of options such as multiple powered USB sockets to enable recharging mobile devices for customers or for staff "on the go". When combined with our latest Ethernet Interface, NetPRO, this is not only a stylish, compact and convenient cash drawer but also one that boasts the latest technology making it a truly Mobile Solution.

Designed for use where a cash drawer is in open view and needs to look stylish.

Available with a Standard Printer Kickout, USB or Ethernet (Wired or WiFi) connections.

Curved edges and a flush drawer front give a unique look and feel.

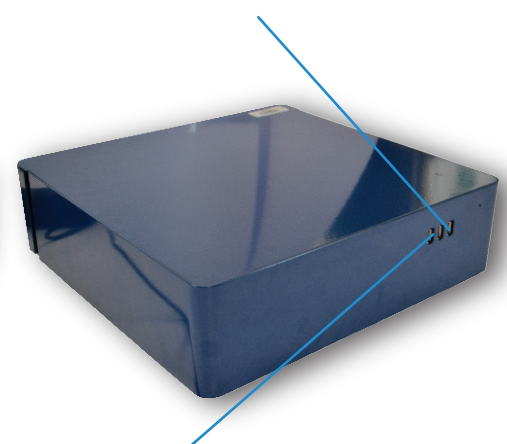

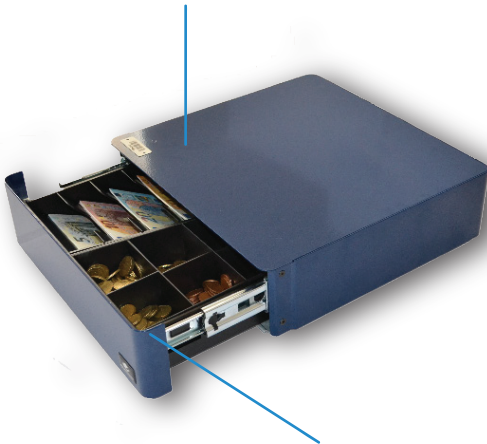

Optional Tablet Rest to give hands free operation of the drawer.

Designed for use where a cash drawer is in open view and needs to look stylish.

Optional Tablet Rest to give hands free operation of the drawer.

Optional Powered USB Ports to re-charge customer or staff devices.

Curved edges & a flush drawer front give a unique look and feel.
