

Retail POS Guardian™

Reduce the Spread of Germs at the POS

Retail Countertop shield

Built to help reduce the spread of contagious, airborne germs commonly spread by coughing or sneezing, the retail Guardian™ is ideal for supermarket, convenience and retail settings.

Create a protective shield in any place of commerce that requires direct interaction between employees and customers in close proximity such as POS checkouts. This robust yet easy to install acrylic screen is available as a tri-fold or single panel with a choice of opening at the bottom, allowing for the transfer of items or payment for transactions. The retail Guardian™ reduces the risk of virus transfer while items are exchanged at the checkout through a protective barrier.

- A sturdy, 'no-tip' solution that is portable and can fully collapse for storage
- Easily sanitised with any common disinfectant
- One year warranty
- Made in the UK

Quality Guaranteed

Built from durable, clear acrylic with solid aluminium frame to match the requirements of high traffic retail environments.

Safer Interactions

Put your customers at ease with a visible barrier that allows for face-to-face interaction while still maintaining separation of personal space.

Protect Employees and Customers

Reduce the risk of exposure to respiratory droplets released when coughing and sneezing.

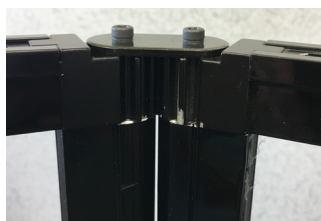

Essential for Business

Ideal for essential businesses such as convenience, supermarkets, retail, medical, dental, and pharmacy settings.

APG's Guardian™ Countertop Shield

Sturdy Construction, No Tip Solutions W/ Mounting Hardware Options

Product Features

Sturdy

Each panel is made of plexiglass 2.5mm thick and weighs 11kg and 3.5kg for the single panel, so it is not easily tipped over. Additionally, mounting hardware, adhesive strips or glue can hold the feet in place for added stability. Single panel has large feet on both sides that can be screwed to the countertop for added stability. Tri-panel also includes mounting hardware with screws for added stability.

Functional

Barcodes can be scanned at checkout through the clear acrylic, preventing physical contact from transferring products.

Safe

Tri panel build helps to mitigate airborne contact from coughing, sneezing, laughing, etc.

Dimensions

Tri-Panel Countertop:

Each panel is 1000mm high x 670mm wide, with a variable depth using included hardware of 32mm – 64mm or 114mm gap at base. Overall length when straightened is 2010mm wide.

Tri-Panel Countertop Opening: The Tri-Panel window opening is 240mm wide x 350mm tall.

Single Countertop Screen:

Each screen is 810mm high x 740mm wide. With a bottom open window of 200mm x 720mm.

Portable

Fully collapsible; panels stack onto one another at a depth of 760mm.

Easy To Clean

Clean with wipes, bleach, or any common disinfectant.

Practical

An opening at the bottom of the partition allows for the transfer of small items, papers, or payment for transactions. Feet risers allow cables for Credit/Debit to fit under the screen without additional check out modification.
